

Engine stand lease services

With high quality engine stands for lease Lufthansa Technik - Logistik Services (LTLS) offers you a flexible and convenient solution to support you in case of any engine stand requirement.

Flexibility and reliability

Whether you have a short-term requirement for a single engine transport or an engine change, or you need an engine stand during a longer repair shop visit – with flexible lease periods to competitive prices we adapt to your individual requirements whenever you need an engine stand.

Before each lease event our engine stands are inspected for functionality and safety. Furthermore, the engine stands undergo an annual maintenance carried out by Lufthansa Technik according to the requirements of the aviation authorities, manufacturer specifications and LTLS` quality requirements above industry standards. The use of an IT-based quality management system enables a consistent monitoring and control of maintenance intervals and necessary inspections. With our focus on quality you can be sure to get a reliable engine stand.

Engine stands portfolio

Our portfolio consists of engine stands for several engine types, e.g. for Trent 500/700, CF6, CFM56 and V2500 series.

To assure a flawless handling our engine stands have all state-of-the-art features:

- Applicable for road and air transportation
- Tie-down rings around the base
- Shock attenuation arrangement
- Fork lift capability
- Bootstrap ability upon request

Combination with our logistics expertise

We know that time can have an exceptional role in the aviation industry. To make it more convenient for you and generate time savings we can organize the transportation for you as well. Take advantage of the combined services of your logistics expert in the aviation industry.

Customer advantages

- Flexible leasing terms for AOG requirements as well as long-term needs
- Highest quality engine stands maintained by Lufthansa Technik
- Competitive leasing prices
- Lower storage and maintenance costs
- Optional transport services for less administration efforts and time savings
